

MANUFACTURING MADE FLEXIBLE

Take control of your production schedule with our subscription-based machine time. Manufacture on your schedule.

WHO IT'S FOR

BASIC

A good option for companies with occasional low volume assembly or prototyping needs, and who's forecasting allows for non-expedited turnarounds.

PREMIUM

A great option for companies with a weekly need for prototypes that can be more involved, sometimes require non-standard processes, and are generally on a tight timeline.

PRO

The best option for companies that require the continuous RAPID prototyping of multiple highly complex products. These products are pushing the boundaries of design & manufacturing and have critical timelines to suit.

FEATURES

Priority in shop over non-subscribers	X	X	X
Bypass Quoting Process "Quote-less Assembly"	X	X	X
AOI on all SMT Parts	X	X	X
